SLO Tracking Form - Counseling Dept. (Academic)

- Course: Counseling 12
- Semester/Yr: Fall 2009
- Report Coordinator: Thuy Trang (T. Lawhead)
- Participants: Carol Beck, Theresa Lawhead, Minh Tuan Nguyen, Char Perlas, Rebecca Sanchez, Rebecca Tran.

SLO to be measured	Goal	Number of students that met goal	Number of students enrolled	Percentage
1. Students will utilize career assessments to identify and analyze interests, values, personality, and skills and how these factors influence career choice.	85% of students will complete quizzes, presentations, projects and/or essays with a grade of "C" or better.			
To be completed by report coordinator __x_ SLO goal met (232/256 = 90%) ____ SLO goal not met	Section number 81387	42	45	93
	81389	46	54	85
	81390	43	47	91
	81391	41	46	89
	81392	40	43	93
	81393	20	21	95
2. Students will access and analyze occupational outlook/market trends and acquire the knowledge necessary to utilize occupational resources.	85% of students will complete quizzes, presentations, projects and/or essays with a grade of "C" or better.			
To be completed by report coordinator: ____ SLO goal met __x_ SLO goal not met (183/226 = 80.9 %)	81387	31	40	78
	81389	44	54	81
	81390	38	43	88
	81391	33	46	71
	81392	37	43	86
	(N/A: Couns. 12A) 81393			
3. Students will develop career and educational plans.	85% of students will complete quizzes, presentations, projects and/or essays with a grade of "C" or better.			
To be completed by report coordinator: ____ SLO goal met __x_ SLO goal not met (174/223 =78%)	81387	28	38	74
	81389	38	54	70
	81390	38	42	90
	81391	41	46	89
	81392	29	43	67
	(N/A: Couns. 12A) 81393			

Part 3: SLOs: Counseling (Non Academic)

Identify your SLO findings since the last review.

According to the department's assessment plan, the following were the SLO Assessment Measures and Criteria:

1) **As a result of a counseling session, a student will actively participate in the educational planning process:**

   70% percentage of students will select "Agree" on the student survey given out after a counseling session
2) **As a result of a counseling session, a student will better able to understand the academic regulations, standards and requirements needed for completion of their academic goals: *70% percentage of students will select "Agree" on the student survey given out after a counseling session***

3) **As a result of the counseling session, a student will better be able to select appropriate college courses, programs and services to meet their individual needs and to support their academic success*: 70% percentage of students will select "Agree" on the student survey given out after a counseling session***

4) **As a result of a counseling session, a student will feel personally acknowledged and more confident in her/his ability to benefit from the learning opportunities at the college: *70% percentage of students will select "Agree" on the student survey given out after a counseling session***

Results from the Student Survey indicate that the department met and exceeded its goal. Surveys indicate that 100% of students selected 'Agree' on each item listed in the Student Survey.

Identify updates/changes to the programs/services provided due to SLO assessment including rationale.

As a result of the exceptional outcomes of the student surveys, the department will continue to provide students with services that contribute to the department's SLO's. According to Cuseo (2003), "If the purpose of the assessment is formative, its goal is to obtain information that can be used as feedback to improve or fine tune an existing program. Adversely, a "summative assessment is designed to "sum-up" a program's overall value or impact" (p. 1). Counseling Department Survey results serve as a summative assessment which has been utilized to summarize the department's overall value to the college.
