ANTHROPOLOGY (ANTHR)

DIVISION: Social Sciences
PROGRAM: Anthropology
COORDINATOR: Ruth Laird
PHONE: 408-855-5186
COUNSELING: 408-855-5030

Mission College offers basic lower division courses in Anthropology. Anthropology provides an excellent background to many other behavioral sciences. Anthropology offers a basic understanding of people, including their physical and behavioral adaptations to the world around them.

Student Learning Outcomes:

Students completing courses in Anthropology will:

- Differentiate between individual choices and choices made for us by our culture
- Identify ethnocentrism (centered in one's own culture) in self and others, and assess the effects of ethnocentrism on cross-cultural relations among individuals, groups and nations
- Demonstrate in written or oral work, or lab exercise, knowledge and application of scientific method and the development of cultural and biological theory about humans
- Classify universal shared elements of culture and assess alternative ways that human groups meet needs for stability, reproduction and social control.
- Name and describe living patterns and world views of several groups in the world today as well as that of their own group
- Investigate past life and culture, educating others through oral and creative projects about the value of preservation and reconstruction of the past.
- Learn the place of humans in the biological continuum, identify and critique principles of human evolution, and see humans and themselves as part of Nature, not apart from nature.

Students will demonstrate analysis and mastery of program materials through written tests, quizzes, term papers or projects, oral presentations and discussions.

Career Options:

- Anthropologist
- Archaeology Technologist
- Transcultural Nursing
- Transcultural Health-Care Worker
- Environmental Impact Analyst
- Instructor
- Population Analyst
- Archaeologist
- Museum Curator

Some career options may require work beyond the AA or AS degree.

- develop their vision to devise innovative solutions to creative and technical problems.
- present to the instructor a portfolio of work which will be evaluated according to the criteria of technical mastery, creativity, solving problems with original solutions, and meeting the stated goals of the assignment.
- develop critical thinking skills as they analyze, compare and contrast, and trace the development of art forms from different parts of the world from ancient to modern times.

Career Options:

- Arts Administration
- Art Librarian
- Animation Specialist
- Education/Teaching
- Museum/Gallery Professional
- Visual Resources Curator
- Art Conservator
- Art Therapist
- Computer Art
- Graphic Design
- Publishing/Journalism
- Furniture/Industrial Design

Some career options may require more than two years of college study.

Highlights:

- Art faculty who have exhibited regionally, nationally and internationally.
- Opportunities to explore artistic expression in two- and three-dimensional media using a wide variety of materials and techniques.
- On-campus gallery exhibits.
- Scheduled trips to major museums.
- Guest lectures and demonstrations.
