Sun/Windows
Because the windows have no blinds it makes things hard to see on the screen when a movie is on.

The windows when watching films on the screen it's hard at times because there aren't any shades on the windows to make the room completely dark.

There should be shades for the windows because it's hard to see the audio visual with the light shining through.

Windows are wonderful except when we are showing AV - video, powerpoint, sometimes it is difficult to see.

Windows need some covering. Tables are great, chairs are uncomfortable.

The windows create a glare that makes watching videos difficult. Perhaps blinds would be beneficial.

I think there should be blinds on the windows. People walking by can look right into classroom.

We are melting in the sunlight through the window

We are melting in the sunlight and the sound of the piano in the next door class is really loud.

A bit too much sun comes in around 6:15 pm. Otherwise, I love this place.

Needs window blinds. Strong glare from sun in evening.

Sound
Sometimes you can hear music (piano) in the classroom. (MT-14)

If you are sitting in the back you can't really see, the music next door is not good.

Sound proofing

Get rid of the background noise (the piano)

We are melting in the sunlight and the sound of the piano in the next door class is really loud.

Size
The room is a little big. Students in the back sometimes have trouble seeing or hearing instructional material.

If you are sitting in the back you can't really see, the music next door is not good.

Furniture/Equipment
Make the desks bigger and have a cup holder to put away drinks

The sled desk is comfortable but for skinny people the desk is too far apart from the chair

I prefer tables with chairs for student group work

Chairs are just good, sitting in a two hour class, I want excellent seating. Walls are too plain, more color.

The chair is a bit high.

Overall the room is very good. If chairs are put here may be increase the capacity of room.

Get new table and chairs the sled desks suck.

Get comfortable furniture and make it look less boring.

Excellent accessibility to power outlets at edges of classroom, but lacking power outlets in middle of the room (on floor)

I love the fact that there's plenty of plugs for laptops to use throughout the room, makes it very handy to take notes on my laptop instead of writing on paper

Need more power outlets

Need mac hook up because I can't transfer files from my mac to the pc to use overhead.

Better routers for faster internet

I like three white boards and a sled desk.

Three white board in every classroom

Please don't use board with chalk.

It would be nice to utilize the side boards, but there are tables in the way, rendering them useless.

The boards on the side walls are useless since there are tables in the way. It gets hot, but opened doors helps as well.

Boards on each side of the classroom is not needed. Teachers don't have access to them.

There's a white board on the side wall that instructor cannot access. Desks need to be shifted to the wall near the door side.

I like that there are three boards.

If it were possible to have double sliding white boards so more can be covered because less has to be erased like at M.I.T.

Temperature Control

It's either too cold or too hot in this classroom. The air conditioning and heater should be on auto

The air should be set at normal temp. It was freezing most days!
Air conditioning is very cold

Sometime the air conditioning is too cool in this room and noise.

For me it's cold

Too cold while opening the AC

The heating is always off, with the temperature outdoors.

It's too cold sometimes.

Well done - thanks!

Classrooms are clean and conducive place for learning.

This class is very nice. I love it.

I love these classroom.

I like this classroom.

I love this class I hope so it good other room.

For me this rooms is perfect. I hope all the classrooms should be like this. Thank you so much.

I loved this classroom is very comfortable

MT-24 classroom is best in MT 1-24 buildings.

I love this class the desk and white board.

I love this class. Environment very good!

I think everything is ok.

I think the renovation is perfect please continue work with other areas.

I think there's a map of the world in the classroom will be good.

Very good for condition

I would like all the classroom have change this room is great

Everything good

Better than the rooms inside

I hope every MT building should be remodeled as MT 14.

Good. No comment.

It's very good.

None for now.

All is good in class.

I like this classroom generally!

Awesome

Overall the room is nice and comfortable. Thanks for the renovation.

Compared to before this room is much better.

I think the ceiling projector is a really nice touch.

I like the flooring… very nice. Overall, good job!

Add some color to the inside walls.

It's nice

Wish all of the MT buildings will look like this one

Everything is OK!

Thank you for improvement

Other – Negative/Suggestions

Maybe need to change the pattern and color of the carpet.

DON'T WASTE TAX PAYER MONEY!!!

Please remodel the whole campus.

Please remodel the whole campus.

Too big (too long)
