

1: The assignments contributed to a better understanding of the course material

<u>Response</u>	<u>Value #</u>	<u>%</u>
<i>Strongly agree</i>	1 27	45.8
<i>Agree</i>	2 29	49.2
<i>Disagree</i>	3 1	1.7
<i>Strongly Disagree</i>	4 0	0

2: The flash presentations contributed to a better understanding of the course material.

<u>Response</u>	<u>Value #</u>	<u>%</u>
<i>Strongly agree</i>	1 23	39
<i>Agree</i>	2 30	50.8
<i>Disagree</i>	3 3	5.1
<i>Strongly Disagree</i>	4 0	0

3: The interactive flash demonstrations (in which you had to participate) contributed to a better understanding of the course material.

<u>Response</u>	<u>Value #</u>	<u>%</u>
<i>Strongly agree</i>	1 23	39
<i>Agree</i>	2 30	50.8
<i>Disagree</i>	3 2	3.4
<i>Strongly Disagree</i>	4 0	0

4: Have you taken an online course before?

<u>Response</u>	<u>Value #</u>	<u>%</u>
<i>Yes</i>	1 35	59.3
<i>No</i>	2 22	37.3

5: Have you taken a condensed (short) course before?

<u>Response</u>	<u>Value #</u>	<u>%</u>
<i>Yes</i>	1 27	45.8
<i>No</i>	2 29	49.2

6: This course was only 14 weeks...

<u>Response</u>	<u>Value</u>	<u>#</u>	<u>%</u>
Yes, I liked that the course was only 14 weeks.	0	52	88.1
No, I would have preferred the course to last 16 weeks like all of my other courses.	0	5	8.5

7: What did you like about using ANGEL?

- 1 I don't know.
- 2 All information was at my fingertips - one place to find everything: grades, lessons, past submissions. Being able to start a homework, save it and work on it some more later.
- 3 It was well organized and easy to use.
- 4 I like that you can personalize angel and that grades are readily available for the classes that are active on angel. I also like that I can link it to my personal e-mail.
- 5 What I liked about Angel was that it's well put together and easy to get to things and tasks. The steps were simple and easy to follow and makes college life a little easier.
- 6 I like using Angel. I like how the teacher is able to post grades, homework assignments, powerpoints, and links online.
- 7 Its fine,
- 8 Easy to access.
- 9 easy to navigate through. lessons displayed in a timely manner
- 10 Good platform
- 11 It was very useful and easy to use to say it was my first time using it.
- 12 It was simple and I knew exactly when assignments were due.
- 13 In the past i used Angel before but i was not very familiar with the features. But at the beginning of the course we got an overview on Angel and features. It made more clear my understanding of Angel and easy to use.
- 14 Angel was very organized and had everything formatted so that it was easy to find and understand information.
- 15 I liked that it was user friendly and I could access my classes at anytime. I liked that I could view my grades as the class progressed.
- 16 Angel is easy to use and is free. It helps students who are limited on funds. A lot of the online courses at Mission that I have taken required the use of another academic website such as econlab, matlab, accountinglab and music fundamentals. I wish, most professors would use Angel as opposed to these other sites. They are so ridiculously priced. Poor college students are not made of money. It does not make sense that you require a student to pay over \$100 for course material for one course plus tuition fees. Thank you for using Angel.
- 17 It's easy to access, everything is organized, the calendar schedule, and how I can track my grades.
- 18 It is easy to use.
- 19 It was easy and convenient to use. you can access it anywhere.
- 20 Format was easy and organized.
- 21 I like how I can check my current grades, instead of calculating it on my own. I also like how I can access lesson plans, access homework online, and discuss forums with other students.
- 22 It was very organized, and finding what I needed to get done was very easy.

- 23 It is very convenient for me to use ANGEL. It is very simple to use and when I am able to do assignments online or take online courses it enables me to spend more time with my family.
- 24 It was simple and made everything a lot easier than going to a classroom.
- 25 I liked how I didn't have to go to a different site to do my homework.
- 26 easy to navigate and view prior assignments when necessary
- 27 I like using Angel because it is easy to access and well organized.
- 28 Simple and easy to navigate User Interface
- 29 Easy to access when it was convenient for me. A;so was very easy to communicate with instructor
- 30 that I dont have to take MT/Final on campus--its an online course, meant for busy people who dont have the time for orientations and other junk.
- 31 It's organized and easy to find and complete assignments. Due dates were clearly visible and overall it just made my learning experience smooth and easy.
- 32 It was easy to access and to use.
- 33 It expanded my knowledge base regarding looking up information.
- 34 Angel is fast and never "lagged" for me like Ohlone's online course system did.
- 35 It was a nice way to communicate with my instructor. Even though we never met in person, our interactions on Angel made me feel like we had a good student/teacher relationship. The video presentations were very helpful and clear.
- 36 Angel was great because it maintained the record of my assignments and it also kept me in communication with the class, as well as it provided grades.
- 37 It was very easy to use.
- 38 It was easy to view what was due and when it was due.
- 39 I like that Angel keeps me connected with all my classes and makes it easy to find class information, homework, lectures, and grades. Angel also makes it easy to communicate with your teacher and classmates.
- 40 Angel was easy to use because the instructor provided direct links to flash demonstrations as well as homework and tests. All the material was in one place, cannot be misplaced, and was reliable.
- 41 It was easy to interact with other students taking the course and with the instructor as well. Also, it was easy to use because we use angel for our other classes.
- 42 I liked that not only this class was on there but the some of my classes were on angel as well and it made it really easy to keep organized and get assignments done.
- 43 Easy access
- 44 I liked it beause i didnt have to purchase an extra website like My Math Lab makes us do for our math classes.
- 45 I like the way everything is managable and easy to use. I also like the way it is layed out which is making it easy for all students to have simple access to.
- 46 Angel is a very convenience tools for studying. Students can apply information about classes everywhere.

8: What did you dislike about using ANGEL

- 1 I forgot what it was.
- 2 Losing the server during lessons and homework. Thankfully it never happened during an exam.
- 3 No comment
- 4 The only thing that I didn't like about Angel is when doing tasks it wouldnt save my work sometimes or it would sometimes exit me out of a task while I'm doing it.
- 5 I have heard that sometimes teachers do not receive emails on Angels, which I do think could create problems.
- 6 Nothing.
- 7 i thought it was great
- 8 Technical problems. And the absurdity of only supporting outdated browsers. For instance, I downloaded IE8 per instructions,only to find out that my Win7 version is so up-to-date that it no longer supports IE8. Trully absurd!
- 9 Sending emails because sometimes the system would not let me look up the persons' name who I was sending an email to.
- 10 Nothing.
- 11 Nothing, like i said in the past i have taken online courses, but before this course it was hard to find certain features. But i still did enjoy taking online courses through Angel and now even better.
- 12 There was nothing that made me dislike angel.
- 13 Nothing in particular.
- 14 The only downfall of Angel is that it is not compatible with Google Chrome and has errors with the latest IE. I did not enjoy downgrading my Firefox, but I would rather not have to deal with technical complications later.
- 15 Nothing.
- 16 Some of the items doesn't work with Safari.
- 17 Nothing, it was fine.
- 18 It was not compatiable from my home PC, so I always had to come to school library which made it inconvenient. Ultimately the root to my LIB10 demise.
- 19 I honestly had no problems with angel.
- 20 I didnt like how you had to view all the discussion board to get rid of the unread messages.
- 21 Although I have seldom have problems there is always a small level of anxiety that I will hit the wrong button (or my dog or children) during an exam or assignment and this would affect me. I noticed that Mission College added a feature that says are you sure you want to do this? and you must enter a Y or N and then select enter in order for the order to execute. It would be really nice if this was provided for assignments or exams. It would also be nice if something was accidentally closed it could be reopened to continue work as long as time limitations have not elapsed.
- 22 Nothing
- 23 I didn't really dislike anything about this course.
- 24 Nothing really
- 25 I dislike about Angel because sometime it slow response.
- 26 Tool for text format and view of progression is so simple and not good enough.

- 27 Minor booboos
- 28 Its not about angel, what I STRONGLY DISLIKED was noodle bib. Irritating as all hell when you use it and it doesnt even cut and paste without having to spend 10 minutes trying to get the stupid HTML link to accept it.
- 29 I found the HTML editor function in angel to not be very reliable.
- 30 Nothing. Maybe how it is designed.
- 31 It was confusing and I was never able to get help with guidance from the librarians.
- 32 The layout could use some help. The site also needs to be able to conform and grow with the growing technology and shouldn't have things like "unable to support this browser."
- 33 Nothing. It was a good system..
- 34 One thing I don't like about Angel is that it doesn't let me print our past assignments to review and study for exams.
- 35 Nothing
- 36 It tends to be slow when using it on campus.
- 37 I do not like that Angel is slow sometimes.
- 38 Nothing.
- 39 Nothing.
- 40 what i did not like about angel is that angel does not require all classes to use it.
- 41 It needed more variety as far as assignments
- 42 I dont mind using ANGEL at all.
- 43 I disliked the way some documents wouldn't open up, maybe it was just my computer, but everything else was good.
- 44 The domain doesn't stable enough. Sometimes I can't log in.

9: What did you like best about this course?

- 1 The professor responded to our questions the same day we posted them. The professor gave DETAILED responses to our assignments along with our grades. The professor gave lots of advice. There was soooooo much information covered in it about ways to access free and trustworthy information, that I had no idea even existed!
- 2 The Instructor - it was the best online-class experience I've had in my 7 year U.S. education career. She was very prompt in replying to e-mails, providing examples with graded homework and the set up of the lessons was facilitated in a timely, efficient, and organized manner.
- 3 Flash presentation and slideshows
- 4 I like that there's plenty of time to turn in your work
- 5 I liked the infomation that I gained from this class that I could use for the rest of my life.
- 6 It gave me plenty of information about doing research that I may have not known before taking this class. It also gave me a view of APA since I have always only used MLA formatting.
- 7 Short and condensed...not too much homework.
- 8 very informational
- 9 Instructor was very well organized, friendly, thorough and on top of everything daily.
- 10 I liked the pace of the class and how I can do assignments earlier if I wanted

to.

- 11 I loved that they were so easy to contact the instructor.
- 12 Before it was very hard to find research for my paper. I didnt know what databases was, or Citing books, web, Journal, News paper, or noodlebid. I didnt know my way in the library or where everything was located. websites the provides free publications for scholar articles and academic journals. It really open my eyes to vital information i need to write a research paper.
- 13 It was easy to understand because of the information the teacher gave and organized especially the readings from other schools helped alot
- 14 I liked how the course was spaced out. One section in one week. If I was super busy through out the week I could wait until Saturday to start the course work.
- 15 The course was affordable and the learning experience was good. Professor Sargent was always helpful and informative.
- 16 This class is very hard for a 1 unit course, however, I learned so much. The knowledge that I acquired in this course will definitely help me along the way in my education and career in the future.
- 17 There was a lot of new information I learned
- 18 It was easy to keep up with and it really showed me some new ways to find information.
- 19 INstructional data provided.
- 20 I like how everything was up to date, no problems on any of the files, discussion forums is a great way to answer your questions.
- 21 I like to do searching
- 22 It wasnt too much to handle, it was spread out very evenly and very organized.
- 23 The teacher. The teacher was awesome. I have NEVER taken an online course where the instructor was so involved in the progress of the students. She is super organized, communicates with us often, answers questions fully, clearly, ect. I don't think there could have possibly been a better instructor.
- 24 it taught me multiple things on how to work the library catalog that i had no idea how to work before this class.
- 25 I liked they presentations to teach you about the lesson ahead.
- 26 The internet information was great and I will be able to use it for other classes. Plus I learned alot about the various databases available through the library.
- 27 This course is convenient and save time.
- 28 I've learnt a lot of new information and new sources for academic research
- 29 It was organized and very helpful
- 30 that its online and I dont physically have to waste gas to do the course.
- 31 I learned a lot of basic knowledge that a college student needs to be successful and even a bit about the internet and it's workings.
- 32 What i like about this class is that it is all of the information that is in the lessons are very useful not only for this class, but it is also useful for other courses like English.
- 33 The easiness and assignments
- 34 The assignments were pretty straight forward and the directions on how to do them were understandable.
- 35 I really loved learning how to make use of the different databases.
- 36 I liked learning new aspects of ideas I thought I already understood. For example, I didn't think there was anything I didn't know already about using

a search engine or getting information at the Library. Now I have a whole new approach.

- 37 The best thing about this course was learning about Noodle Bib and how to evaluate research information.
- 38 Gained confidence in utilizing the library and its databases.
- 39 I liked learning how to use Noodle Bib because it is a very useful tool that helps for other classes as well.
- 40 I liked that the material was very straight forward and that the assignments were there ahead of time, and that the course gave us time to work at our own pace.
- 41 It gives you a full over view on how to us the online databases and other resources that we could use for other classes. If you're taking english 1A, this course definitely helped a lot by taking it at the same time.
- 42 that i had a week to go through the assignments at my own pace
- 43 Simplicity and strict deadlines
- 44 i like best that it ends before finals and i am able to get this class done with and off my mind before my finals start for my other classes. thank you.
- 45 I liked how the instructor used powerpoints because they gave better understanding about all the assignments. I also liked how the instructor gave clear instructions.
- 46 it provides some more ways to use the library effectively. This course also help me save time for citation, which I have to know for my English classes.

10: In what ways could this course be improved?

- 1 In no way.
- 2 It is great the way it is, but more encouragement should be given to take Library 10 in the first year at college. It could have saved me a lot of time, had I known what I know now. I only enrolled because I was about to graduate and needed it. Totally undervalued class - especially as it's only worth 1 unit. Considering the information learned and work put in, it should be 2 units.
- 3 There's really nothing to improve because everything was helpful.
- 4 With some tasks go more into detail because with some that didn't get explained to much it took me awhile to figure out what I was suppose to do.
- 5 This course seems like a waste of time/ credit. If a student doesn't have basic knowledge of a library, the internet, or what is plagiarism, then they probably aren't literate enough to be in a college level course. Or possibly it would be wise to make this course a request versus a requirement.
- 6 I think the course went fairly well. There is nothing I can think of at the moment where this course needs improvement.
- 7 More discussion questions.
- 8 too informational
- 9 The material is too much for 1 credit course. The number of hours required per week for study and homework were very long. Either the material should be less or the course should be 2 credits.
- 10 No ways I liked it and learned a lot too.
- 11 Nothing
- 12 Everything was organized and step by step and clear directions. The teacher was very knowledgeable of the course
- 13 It does not need to improve it is very well explained and manageable
- 14 The presentations were a little dry. The women who voiced the

- presentations was very monotone, which made it hard to concentrate on what she was saying.
- 15 If Angel could be compatible with Google Chrome and did not force the downgrade of Firefox, I think it would improve a student's experience and decrease technical problems.
 - 16 This course should be 2 or 3 units instead of 1.
 - 17 I like the course as it is.
 - 18 Some of the volume levels for some of the flash presentations were very low and hard to hear even with the volume all the way up.
 - 19 I have no problems with this course, online class was excellent.
 - 20 The discussion board just seemed a little bit too disorganized maybe a little more organization.
 - 21 I feel that it would be better if there were condensed notes available to print and study. Sometimes in order to understand something you may have missed you have to comb through a sea of flash presentations and find the right section. I would have liked having all this good information we learned condensed into a pdf format so that it would be easier to find information I am looking for at the time.
 - 22 nothing
 - 23 none
 - 24 I think this course was fine doesn't need improving.
 - 25 Should give more extra credit works to make up missing assignment
 - 26 There should be a summary of the information in the
 - 27 its fine the way it is
 - 28 get rid of noodle bib.
 - 29 There are no ways to improve this course that I can think of.
 - 30 I think they should improve some of the tutorial for the lessons because sometimes they won't work right.
 - 31 Nothing really.
 - 32 It should be graded so heavily, instead of 100 points, it should just be 10 points because ends up being the same amount of points.
 - 33 The homework/lectures sometimes seemed tedious (except when I was able to do the interactive lectures). I think the homework overload is too much for a one unit course and can be simplified.
 - 34 I think that this class was just fine.
 - 35 This course is fine the way it is.
 - 36 None
 - 37 N/A
 - 38 Nothing really, I don't think I would change anything unless there was new information to be added.
 - 39 maybe a few on campus meetings
 - 40 More variety in listening to the lectures
 - 41 giving us more chances on the homework and maybe some more extra credit.
 - 42 I don't think anything needs to be improved. I felt like it was pretty good.
 - 43 the lesson should be more obviously. Some of the lesson I can't understand what it want from me, or I can't find the sources to work on exercises.

11: Did this course meet your expectations?

- 1 It surpassed my expectations. I was expecting it to be a drag, to be an additional burden along with my regular courses. I was annoyed that I have to take it before I can be allowed to get my degree and I was sour that I failed the Information Competency exam and had to take this. But now I am soooo grateful for having taken it. I had no idea that databases and directories existed online and meta search engines existed at all! I only use Google so now I know much more about other things I could use for valuable information and I learned about the importance of cross-referencing my sources.
- 2 Well exceeded them - I tested out of Library 10, but decided the syllabus sounded interesting and I might brush up on some things. I found that I have a new appreciation for citing resources and have learned better and faster ways to find relevant information that's suitable for academic research.
- 3 Yes
- 4 Yes this course met my expectations and I gained more information that I thought I was in the beginning of the summer, I'm glad I took this course.
- 5 No. For a 1 unit course I spent quite a bit of time working on a lot of "busy work."
- 6 The course did meet my expectations. Although I do wish I took the shorter class. I do believe this class can be taken in the 6-8 week session instead of a 14-16 week session.
- 7 Yes.
- 8 surpassed my expectations
- 9 No. Though I learned some interesting things, I found it very frustrating to have to spend 5-6 hours to complete assignments to the level that I consider appropriate. For those of us with very busy lives, it is an unpleasant surprise to find out that our time budgeting for the semester is all wrong through no fault of our own.
- 10 I thought it would be easier but I liked the challenges in this class and how interactive everything was.
- 11 Yes.
- 12 Yes, it was a lot of work for someone like me. That did not have any knowledge of how to research for a paper. But at the end it prepared me and fill me with a lot of knowledge for my English classes.
- 13 Yes it exceeded my expectations
- 14 Yes.
- 15 Yes.
- 16 Yes/No. Yes, because this course really prepared me physically and mentally for the other classes that I need to take. No, because I was expecting an easy course.
- 17 Yes.
- 18 Yes, it actually bypassed my expectations, I didn't think this class would be interesting at all but it was.
- 19 Yes
- 20 Yes, this course reached my expectations.
- 21 yes
- 22 Yes I now know how to easily find information on research topics. Also how to go to the library and now what to look for.
- 23 Yes, definitely. I only wish I had taken it sooner.
- 24 yes it did
- 25 Yes it did.

- 26 yes
- 27 Yes, it meet my expectations
- 28 Perfectly
- 29 yes
- 30 no
- 31 Yes.
- 32 I think this course meet my expectation
- 33 Yes I did.
- 34 yes.
- 35 I learned a lot more than I thought I would.
- 36 I would have to say it exceeded them. I gained a lot more knowledge than I was expecting.
- 37 The course did meet my expectations and it covered everything I thought it would.
- 38 Yes, very much so.
- 39 Yes
- 40 yes
- 41 Yes, it did.
- 42 yes
- 43 Yes
- 44 i did not know what to expect from this class, so i was open to anything and everything.
- 45 Yes!
- 46 more than my expectation.

12: Do you have any additional comments?

- 1 I think the professor is very informed, considerate, and helpful. I like that.
- 2 This class is an ideal one to take online - needs more prominent advertising in the college catalog and by advising.
- 3 Thanks for all the help and all the new things I learned this semester.
- 4 Aloha Sargent was an excellent teacher she was very prompt when returning emails and when I didn't understand she told me more into detail of what I needed to do correctly. I wouldnt of asked for a better teacher for this class and Im glad I took it with her.
- 5 Loose Noodlebib and actually make the student learn MLA/APA or use another citation webpage. If a student leaves Mission relying on Noodlebib, then not only will they not know how to cite sources, but also will not have the access to Noodlebib because it is a citation that you have to pay money to use.
- 6 If the department feels that students need and should learn this material, then the appropriate number of credits should be assigned to this course.
- 7 No, I don't.
- 8 no
- 9 Great Online course.
- 10 No.
- 11 As a student who has taken multiple online courses and will continue to in the future, I only suggest that the Mission College staff be persuaded into using Angel as oppose to other academic sites, which require students to pay additional fees on top of their tuition and books.

- 12 I'm very happy that I took this class. I learned so much. I would like to thank my Professor for such a hard, but worth it class.
- 13 No.
- 14 This class did help me alot, especially in my english class that i am taking right now as well.
- 15 I will discuss directly with instructor.
- 16 No.
- 17 no
- 18 none
- 19 no
- 20 Good course to know better about library and searching information
- 21 The work load is heavier than I expected for 1 unit course. There're be some make up for the homework
- 22 no
- 23 the teacher is wonderful, fast with email replies and helpful. just dislike the course and noodle bib makes me dispise it. I wouldnt recommend it to anyone.
- 24 No.
- 25 I think, they should increase the UNITS of this course because they are so useful for almost everything.
- 26 No, it was a pleasure taking this online course.
- 27 The teacher is very helpful and quick at responding clearly.
- 28 This course was great and I would recommend that everyone takes it.
- 29 Great Class, Thanks Sargent Aloha!!
- 30 No
- 31 teacher was reliable and well organized.
- 32 no
- 33 No
- 34 no, other than my teacher doing a great job. being very flexible to work with, and always had possitive things to say about my work.
- 35 I enjoyed this course a lot.
- 36 I would like to pass this class.

Some additional comments sent from students, via email:

1. I want to tell you that you are by far the BEST online instructor I have ever had and one of the best instructors at Mission (and I have taken a lot of online courses). It really was a pleasure learning from you. Thank you again
2. It has been a wonderful semester having you as an instructor! This is the first online class that I have actually enjoyed and learned a lot from! Hope you have a wonderful summer!
3. thank you for such a great semester! I learned a lot in this class that will definitely help me in the long run!
4. I am very happy with my decision to take this class even though I took the proficiency test and passed - I learned a lot by doing the interactive lessons and homework.
5. Thank you for the encouragement and the congratulations. And thank you for a great semester. I sure learned a lot from this course such as: There is plenty of information out there to seize oppurtunity to acquire in different ways. Once again thank you so very much
6. Week 11's homework assignments took 6+ hours because there was a lot of research involved and a lot of information is not trustworthy. Also, it takes a lot of skill to evaluate sources

7. I thank you for your understanding and patience and for letting me complete your course. But also all the information i obtained and preparing me for my next english class.
8. I really appreciate the time you took to answer all of my questions over the semester. It was a great course, Thank You.
9. Thanks for a great class. The format is great as I now have 2 more weeks to focus on my other finals.
